

The Delegation of German Industry and Commerce in Ghana (AHK Ghana)

Invites you to participate in a Delegation trip to Munich, with a focus on

“Solar Thermal Technologies, Photovoltaics and Storage”

Date: 18.06.2018 – 23.06.2018

Location: Munich, Germany

Overview

The Delegation of German Industry and Commerce in Ghana (AHK Ghana) wishes to invite all industry players in the renewable energy, solar and photovoltaic sectors to a guided trip to Germany to visit the **intersolar 2018** trade fair in Munich.

Intersolar is the world's leading exhibition series for the solar industry with areas of focus on:

- Photovoltaics
- Energy Storage
- Renewable Heating
- Products and Solutions for Smart Renewable Energy

The objective of the trip is to provide the opportunity for the Ghanaian Business Delegation in the solar sector to establish contacts with top international businesses with solar and related products and solutions.

Top reasons to attend the intersolar 2018 exhibition and conference series are:

- Gain profound insights into current global trends in the solar industry and stay informed about the latest technological innovations.
- Attend world-class conference programs with renowned speakers.
- Exchange ground-breaking ideas on an international platform.
- Meet the decision makers who are shaping the solar market.
- Get connected at exclusive networking events.
- Benefit from a global network – events in the world's key solar markets.

Participants will have the possibility of meeting private and public actors from the environmental sector in Germany and all over the world during their stay, participate in forums and experience live

demonstrations.

Target Group

The trip is aimed at representatives from enterprises, public institutions, professional associations and research institutions in Ghana who want to do business, establish concrete business connections and learn about the development and implementation of projects for photovoltaics, energy storage, renewable heating and products and solutions for smart renewable energy in general. There will be representatives worldwide from industry players such as technology providers, system operators, service providers and consultants.
